## Lunch and a Movie The Green Prince

"Based on the best-selling memoir *Son of Hamas*, **THE GREEN PRINCE** exposes a world of betrayals, impossible choices, and deadly secrets amidst the chaos in the Middle East. Detailing an unprecedented and highly unconventional alliance between sworn enemies across the Israeli-Palestinian divide, this unpredictable documentary-thriller tells the extraordinary true story of Mosab Hassan Yousef – codenamed "The Green Prince" – the son of a top Hamas leader who shockingly emerged as one of Israel's prized informants, and Gonen Ben Yitzhak, the Israeli Shin Bet agent who recruited Yousef and ultimately risked his own life and career to save him."

Description provided is from the DVD cover of *The Green Prince*.
